ABOUT THE INSTITUTE

Delhi Technological University located in Delhi is a premier institution of Engineering and Technology in India. The university plays a key role in the national and global knowledge network, empowering India with the wings of knowledge and innovation. The university aims to imbibe a culture of methodical research and to develop a scientific temper for the integration of science, engineering and management. DTU has been ranked amongst the top institutions in multiple reputed national and international surveys.

ABOUT THE DEPARTMENT

The Department of Electronics and Communication Engineering has experienced considerable growth since its inception in 1976. The vision of the department is to focus on the incubation of innovations in the areas of electronic design/ fabrication, and communication technologies, which are needed to address the growing challenges of tomorrow. The overall aim is to harbor a sustainable, and continuously evolving scientific, technological and educational environment which is both internationally-adapted and industry relevant.

OBJECTIVE OF THE FDP

The aim of this FDP is to provide a deep insight about basic concepts, technology and advancement about the latest development in field Wireless Sensor Networks and Internet of Things (IoT). It will further give impetus to the participants towards bringing out newer and efficient techniques. Moreover, this faculty development program explores this area, the future scope of the technology, the issues, the challenges, and research opportunities. The whole course is handled by academicians and industry experts. This FDP is organized by Delhi Technological University, Delhi and sponsored by AICTE Training and Learning (ATAL) Academy.

One-week Faculty Development Program

on

“Wireless Sensor Networks and IoT”

January 10-14, 2022

Organized by

**Department of Electronics and
Communication Engineering**
